Product Description & Prices

They came to you for care... And left knowing that you do.™

IT'S ABOUT FAMILY

When you call Memories Unlimited, you'll always get personalized help from one of our seven family members who make up our organization. We feel that offering bereavement tools to help another family, caregiver, or individual through a difficult time should be a personal experience.

I started our female owned company, Memories Unlimited, in 1981 by sewing baby bonnets for hospitals to give to new parents. It wasn't until close friends experienced a devastating infant loss that I saw the need to create a bereavement support tool to help comfort families. Bill, my husband, joined in the efforts to help research and develop the first Memory Box™. Later, each of our three daughters and two of our son-in-laws joined the company, and so did the addition and development of other bereavement support tools.

2014 marks a turning point for our family and the company: we are introducing a comprehensive website with online ordering capabilities. We would like to stress that the website is designed as an additional way for caregivers and families to reach us. In order for us to sensitively care for both families and caregivers, we've created two separate paths: one path includes resources and specific bereavement support tools appropriate for grieving families who may contact us after they have left the hospital, while the other path is exclusively for healthcare professionals, which offers ordering privacy and full access to view all of the Memories Unlimited products. We understand bereavement needs and budgets vary for every organization, which is why we offer a wide variety of items and prices. We hope you will see the thoughtful measures we took to making sure the two-part approach on our website would be functional, sensitive, and personal to grieving families, caregivers, and healthcare professionals.

Our mission is simple: First, serve the needs of the patient and family. Second, serve the staff and caregivers. In all that we do, we strive to assist those who need the help and support of our tools, and we endeavor to deal honestly and fairly with our customers and suppliers. We appreciate *each* customer and *every* order, and hope the psychological support tools and practical items we offer continue to provide help for the whole patient. We believe a big part of life is about helping one another, and if we continue to keep that in mind, together we can achieve our motto:

They came to you for care...And left knowing that you do.™

THE *Preshand*TM SYSTEM

™ Memories Unlimited, Inc.

The Next Step In Bereavement Care...

The *Preshand* System (preh-schänd)

Developed to help complete the continuum of bereavement care by providing caregivers with a dignified, respectful, sensitive, and practical way of managing the Presentation and Handling of the infant when a loss occurs, for themselves, for the infant, *and* for the family.

The *Presentation* portion of this System was developed for the *Parents*. It provides them with the comforting memory of their infant cradled in a Rattan-looking Basket (rather than in an isolette), giving a less clinical and warmer last image of their infant in the hospital and a gentle setting for photos.

The *handling* portion of the System was created with the *Staff* in mind. The Handling Carriers, together with the Inserts (which provide a place for the baby to lay and subtly fit into the Baskets for presentation and also become the final resting place), enable the caregiver to confidently transport the baby through public areas to the morgue/pathology with discretion, respect and dignity.

THE *Preshand*™ SYSTEM

PRESHAND "STARTER" SYSTEM

(a \$726.00 value)

All the Preshand System tools needed to complete the last step in bereavement care are offered at a special value. THE KEEPSAKE IMPRESSIONS KIT™

The Keepsake Impressions Kit, sized for Infants and All Ages, is a treasure that captures - in a mold - a moment in time. Molding Kits are a quick and easy way of providing families with a lightweight, permanent impression of their Little One or Loved One. Kits come packaged with simple instructions, a data label or card, and include a specially designed impression area sized to accommodate the precise amount of no-mix, ready-to-use Molding Material. Safe and non-toxic, the material is initially pliable, so a "second chance" impression can be tried again if needed. Kits can be given to the family immediately with minor instruction that the impression needs to remain open and uncovered to air dry for at least 36-48 hours. To ensure best results, please use the Kits by recommended date on packaging.
