Introducing Porter MIDAS™ – A new nitrous oxide flowmeter with all the right touches.

Features & Benefits

With its advanced touchscreen interface, Porter Midas™ redefines precision and accuracy in nitrous oxide and oxygen delivery. Touch and Slide™ gas flow and concentration control *and so much more with a touch of the finger!*

- Touch and Slide™ flow and concentration controls*
- High flow capability – up to 18 LPM
- Capacitive touch
- Ergonomic and intuitive controls
- Scavenger Plus Interface – Effective scavenging when using disposable breathing circuits
- Optional eAVS – Electronic Automatic Vacuum Switch – precision scavenger control*
- Audible and visual alerts
- Porter Midas™ App and iPad™ exportable procedure log
- Porter Midas™ App and iPad™ remote control option
- Gas used and gas remaining log
- End-of-procedure O₂ recovery program
- 2-year warranty

Safety Features

- Oxygen fail-safe
- Optional nitrous lock-out PIN for security
- Emergency air intake valve
- Diameter Indexed Safety System connections
- Oxygen flush
- Non-rebreathing check valve
- Auxiliary oxygen port for demand valve or oxygen flowmeter
- Self-check diagnostic test during start-up and ongoing during use

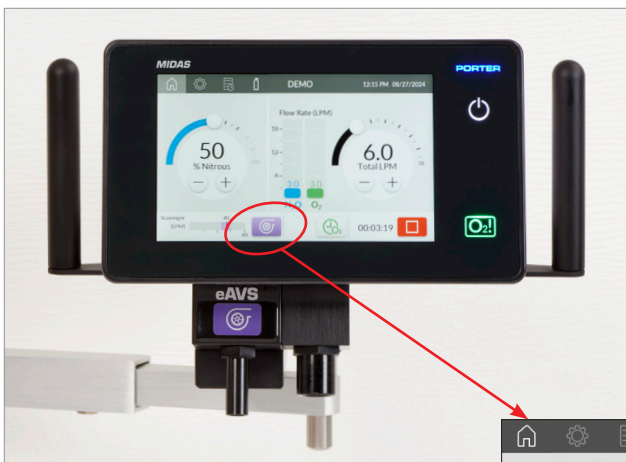

* eAVS and Touch and Slide™ are patent pending

Scavenger Plus

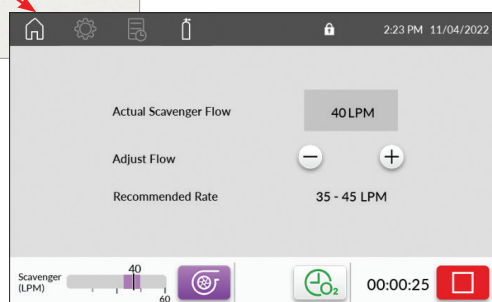

- Allows connection to wall source VAC / WAGD outlets for scavenging of exhaled waste gas
- Visual scavenger control gauge for precise control of vacuum flow
- Exhalation bag for visual confirmation of adequate scavenging flow
- Quiet operation
- Required if using full facemask or mouthpiece

eAVS: Electronic Automatic Vacuum Switch

- Digital scavenging display and control on Porter Midas™ touchscreen
- Precise control of vacuum flow
- Automatically activates vacuum flow when gas flow begins
- Required if using Silhouette nasal hoods
